

Resources on Teledentistry and Mobile-Portable Dental Systems

[Pacific Center for Special Care. Virtual Dental Home System of Care.](#)

- Publications on teledentistry and the virtual dental home
- For information on training and technical assistance opportunities, contact Paul Glassman at pglassman@pacific.edu

[Teledentistry: A Systematic Review of Clinical Outcomes, Utilization and Costs, J of Dental Hygiene \(2013\)](#)

[Case Studies of 6 Teledentistry Programs: Strategies to Increase Access to General and Specialty Dental Services](#), Oral Health Workforce Resource Center, University at Albany, State University of NY.

[ADA Teledentistry](#). This guide is published to educate dentists and others in the dental community on these procedures and their codes first published in CDT 2018 and effective January 1, 2018.

[Mobile-Portable Dental Manual](#) (ASTDD) this online manual provides basic information on developing and operating various mobile, portable and hybrid systems. Please note that much of the equipment and financing information hasn't been updated, but the examples and resources and the infection control sections have recently been updated.

[Issue Brief. Mobile and Portable Dental Services in Preschool and School Settings: Complex Issues](#). ASTDD 2011.

[MobileHealth Map - Mobile Health Clinics Association](#). Website focused on 1) mapping all mobile health programs across the country, including dental programs, and 2) offering mobile healthcare providers an online tool for calculating an ROI (return-on-investment) ratio for their mobile health services.
