

Recommendation for portable dental care programs from the Massachusetts Office of Oral Health:

*The Office of Oral Health recommends portable dental programs continue their work in schools and other public health settings if they can meet the most up-to-date CDC Interim Infection Prevention and Control Guidance for Dental Settings During the COVID-19 Response. CDC interim guidance can be found at <https://www.cdc.gov/coronavirus/2019-ncov/hcp/dental-settings.html>. Portable dental programs should work with the hosts of these programs on timing and other logistics of resuming services.*
