

State Oral Health Improvement Plan Comparison Tool (SOHIPCT)

Description:

State Oral Health Improvement Plans (SOHIPs) identify state-specific priorities to promote oral health and prevent oral disease. Although states strive towards federal oral health benchmarks, individual SOHIP content and scope can differ due to differences in state populations, infrastructure, and capacity.

Every state is listed on the top and also on the tab on the bottom of the Comparison Tool. You can find your state by clicking on either area. The Strategies are on the left side of the tool. The National summary tab gives the compilation of all the states. The number identified across from the strategies show whether a state has that indicator. New and updated state plans will be added by ASTDD as they are received.

You can access the tool at: <https://www.astdd.org/state-oral-health-planning-and-coalition-development/>

States with a current SOHIP on the Comparison Tool	1. Alabama	2018-2023	alsohp.pdf (alabamapublichealth.gov)
	2. California	2018-2028	Press Release- California Oral health Plan (astdd.org)
